

Mr Repshear who was then in the Office searched
for the discharge, and found it, upon which
was written, as well as I recollect, "Presented,
or came to hand April 1852. I don't recollect
the words on precise day of April -
He gave me the discharge, and when I moved
back to Dawson County in the Spring of 1852
I told Bush I had his discharge and offered it
to him. He said he would get one to keep it,
and as there was an expectation of the Board
being authorized to examine claims not
presented under the former law, he would get
me to present it as I had presented it used to
still. It is lost or misplaced so that I expect
it will never come to light, or be seen -
When he wrote to me in September he wrote
the following as a Memorandum -

"They were mustered into Service by Governor
Bill - commanded by Col. Rail -
the Capt's Name was Samuel Davis, first
Lieutenant Phillips, Lieut John Sammonville
This is as written to me, the names and titles as
written above - You will please to write
me and give me the information requested, as
Bush has removed to McLellan County,
and when down here in the early part of the
Summer, he requested me to attend to getting his claim
